

104874G / CPC30220 - CERTIFICATE III IN CARPENTRY

INTRODUCTION

This course is designed to develop the skills such as construct, install, finish and repair structures and fixtures for residential, commercial, and industrial developments. Learners will discover a range of techniques to construct residential, commercial buildings and infrastructure. The carpentry trade allows learners to work outdoors with hand and can lead to opportunities to work for yourself as a sub-contractor.

Successful completion of this qualification will allow you to apply for the occupational titles such as Carpenter – Commercial, Carpenter – Formwork and Carpenter – Residential.

COURSE DETAIL

This is a trade qualification for carpenters in residential and commercial workplaces. It includes setting out, manufacturing, constructing, assembling, installing, and repairing products made using timber and non-timber materials.

OCCUPATIONAL TITLES MAY INCLUDE:

Occupational titles may include:

- Carpenter - Commercial
- Carpenter - Formwork
- Carpenter - Residential

State and territory jurisdictions may have different licensing, legislative, regulatory or certification requirements. Relevant state and territory regulatory authorities should be consulted to confirm those requirements.

Completion of the general construction induction training program, specified in the Safe Work Australia model Code of Practice: Construction Work, is required by anyone carrying out construction work. Achievement of CPCWHS1001 Prepare to work safely in the construction industry meets this requirement.

This qualification is suitable for an Australian apprenticeship pathway.
